NOTES: *We culled out 4 barrels of Cabernet for a microscopic bottling of some killer red wine. We were fortunate enough to tap a well respected site known for providing fruit for some of the most respected Rutherford bottling's in history. I would put this wine in a blind tasting against the top names in the business and it will handle it's own.*

*Lay this down or drink now. Either way open it a few hours before you grill off that Rib-Eye steak you picked up at the butcher on your way home from work. Simple salt & pepper sprinkle is all you will need. Sear in the cast iron and finish it under the broil.*
